SHIP WITHOUT A COUNTRY
Eyewitness Accounts of the Attack on the USS Liberty
Victor Thorn & Mark Glenn
Introduction by Michael Collins Piper

Victor Thorn and Mark Glenn are two of the most courageous journalists in America today and American Free Press is proud to announce the publication of their new book....

SHIP WITHOUT A COUNTRY

EYEWITNESS ACCOUNTS OF THE ATTACK ON THE USS LIBERTY

With a fascinating introduction by AFP's Michael Collins Piper. Special Consultant on this book: Liberty Survivor Phil Tourney.

That day, they saw 'the face of the Devil' . . .

THE ONE & ONLY PHIL TOURNEY . . .

In *Ship Without a Country*, one of the most outspoken among the valiant heroes of the *USS Liberty*, Phil Tourney, is among those who speaks out in his own down-to-earth fashion about what happened on June 8, 1967 in *Ship Without a Country*. You'll be moved to tears by what Phil, his shipmates, a high-ranking military legal counsel who witnessed the cover-up firsthand and an CIA officer have to say in the pages of this remarkable volume.

Although there have been a number of books published about the tragic story of the USS Liberty, this is the first ever book published on the topic by AMERICAN FREE PRESS. And what this book unique is that it focuses on the experiences of the survivors – the brave Americans who – on June 8, 1967 – as Michael Collins Piper puts it in the introduction, saw "the face of the devil." This fast-moving, fact-filled, comprehensive capsule overview of the *Liberty* affair – the attack, the aftermath, the coverup – is a perfect volume to pass on friends and family, local VFW and American Legion posts and other concerned civic groups that need to know about this ATTACK ON AMERICA that's been suppressed by the mainstream media in country.

Softcover, 98 pages, 8VWC, $25 for one copy, 2-9 copies are $12.50 each. 10 or more are $10 each. BEST BULK DISTRIBUTION PRICE: A case of 125 copies reduced to $625 – just $5 each.

After getting shot up by Israelis, with a major torpedo hole in its hull, the Liberty barely limped into port.

THE ATTACK WAS DELIBERATE:

Yes, the attack on the *Liberty* was DELIBERATE—and after you hear what the survivors have to say, you'll never again believe the lies and excuses of Israel and the Jewish Lobby in America and their allies such as John McCain again . . .

American wounded on board the USS Liberty

Why the *Liberty* Incident Is Still Very Important

By Michael Collins Piper

Time have been three major events in the last 50 years which can be traced to the intrigues of Israel to, of course, the 9-11 terrorist attacks on America. There are these — including some self-styled "patriot" broadcasters and others on the "conservative" right who claim there is "no proof" of Israeli involvement, that there's only suspicion of Israeli involvement. But we do know, though, that Israel was a beneficiary — in fact, the prime beneficiary—of those attacks. There is a lot of evidence, though, that calls into question Israel's involvement, to say the least, in the planning of those attacks.

There are those who believe that Israel was the ultimate sponsor of those crimes on 9-11. At the very least, for the sake of argument, even if we accept the lies of the Bush administration about 9-11 and the lies about 9-11 that have been handed down to us by the mainstream media and the "mainstream" media in America, that the 9-11 attacks were carried about by a group ofhidden extremists who were led or directed or inspired by Osama bin Laden, the fact remains that if those Muslims committed the crime, they did it precisely because of the nature of U.S. policy, precisely because U.S. policy has been dictated by the Israeli Jewish lobby in this country which is bankrolled by a relatively tiny handful of pro-Israel Jewish billionaires and who, in turn, control the mass media in this country at all levels and who use that media control to promote their agenda vis-a-vis the state of Israel and their worldwide design on the Middle East and, indeed, the rest of the "New World Order," for which it specifically — as the record shows — the product of an age-old Jewish dream of a global supremacy, a dream spawned in the Jewish holy teachings known as the Talmud.

But then we have that third historical event of the last 50 years, the attack on the USS Liberty on June 8, 1967, in which Israel killed 34 American murder 64 American sailors and intelligence officers and military men who were aboard that vessel as it sailed peacefully in the Mediterranean.

There is one thread that ties together these three major historical events over the last 50 years. They are all inextricably connected and there is a network of Israeli assets in the community of Americans were to know the truth about these events, any single one of these events, properly publicized, would be enough to turn the American political process, specifically in regard to U.S. Middle East policy, upside down.

That is, were enough Americans to know the truth about any single one of these events, there would be — at least one would hope — an all-out revolution in this country against the domination of our U.S. foreign policy by the Jewish / Israeli lobby.

But there's another important point here that must be emphasized: there is one thing about the attack on the USS Liberty that is unique, absolutely certain, one thing which makes the attack on the Liberty so remarkably relevant, and that is this: although we had an American president killed in 1963 that resulted in a major revolution in U.S. foreign policy, there was no major change in that policy, and despite the fact that on September 11, 2001 we saw the assassination of some 3,000 Americans resulting in a major change in America at home (the set-up of a fascistoid police state in the name of "homeland security") and the investment in a seemingly endless war in Iraq (and, of course, the ongoing war in Afghanistan and then the war on Iraq and which is now being expanded, in intent, to a war against Iran and possibly other Muslim states, the big difference between the assassination of President John F. Kennedy, the 9-11 attacks, the 3,000 Americans lost and the attack on the USS Liberty is this: we really can't prove that Israel played a role in the JFK assassination or the attack on theWorld Trade Center.

The evidence is there. It's pretty clear that the is what happened. But it is indisputable that Israel did attack the USS Liberty. It is indisputable about that. Israel has admitted that it attacked the USS Liberty. Israel has not admitted its involvement in the JFK assassination or that it was involved in the 9-11 terrorist attacks. That will never happen.

Why is this important? There is where the Liberty incident is so extraordinarily important. The United States and the world today. We do know that the survivors of the Liberty aren't making things up out of the whole cloth. We have their testimony. We have the testimony of other sources in the U.S. military, diplomatic and intelligence communities — people from within even the Johnson administration — who have come forward to serve as theWhite House at the time of the Liberty attack — who say that the evidence is clear that Israel's attack was deliberate, that it was not, as Israel and its defenders claim, a case of mistaken identity, an unfortunate case of "friendly fire during battle."

There are those who have suggested that the JFK assassination and the attack on the Liberty are in the distant past and that we must focus instead only on the 9-11 attacks if we want to curtail Israeli power over America and American foreign policy. But that is a big mistake — one being a favorite benefit and defenders of Israel who say we must "move on" and forget about the USS Liberty, saying it is "in the past," who tell us we must "never forget" about the Holocaust, those events that took place during WorldWar II — more than 60 years ago.

The point is, when it comes to the bottom line, it is the in the case of both the JFK assassination and the events of 9-11, we have major mountains to cross, hurricanes to surpass, blinding dust storms to penetrate. We face a mass media that has convinced millions of Americans of a fraudulent story surrounding 9-11 And although the evidence is there in the JFK case — of a conspiracy — and a big one — behind the murder of President Kennedy, the nature of the Israeli connection to the Kennedy assassination still remains largely hidden. Most people find it easier to believe that Lyndon Johnson was behind the conspiracy or simply that "the CIA did it" or that "the Mafia did it" or the "military industrial complex" was the force behind the JFK assassination and, later, behind the 9-11 attacks.

But what we do know, beyond question, is that Israel did carry out that treacherous attack on the Liberty.

We are told by the mass media to "support the troops" in Iraq and Afghanistan and a really behind the troops if we go to war against Iran, but that same media refuses to support the troops who were aboard the USS Liberty and who insist, to this day, that the attack was deliberate, that the Israelis knew that the Liberty was an American ship.

Americans, by and large, do support the troops and admire our military and if more and more Americans learn what happened to those troops on the USS Liberty, just the simple fact that Israel attacked the Liberty and knew that it was an American ship would cause a major revulsion in American attitudes toward Israel.

But it is not so complicated when one discusses the attack on the Liberty. The fact is that Israeli warplanes and torpedo boats deliberately and without provocation tried to sink theAmerican ship and kill all of the men on board for the very reason that they knew the ship was there to spy on Arabs and provoke a nuclear attack on the Arab world and give Israel the opportunity to reign supreme in the Middle East. It's that simple.

That's why the USS Liberty is so important: not only for the men of the Liberty to see simple justice but so that we can turn American foreign policy around.
